35a Lekki County Rd / 08116256294 / [tundeabati001@gmail.com](mailto:tundeabati001@gmail.com)

Github: <https://github.com/Night-Prime>

## CAREER OBJECTIVE

---

Self-motivated, resilient team player seeking a position as a developer where I can apply my passion for programming and design skills and leverage my knowledge of web design to contribute to company projects.

## EDUCATION

---

**Caleb University, Lagos**  
*Bachelor of Science*

**SEP 2019 – JUL 2023**

*Final Year Project:*

Built a Secure Identity Management System (SIMS) using blockchain technology on the Ethereum Network. Frontend developed with Next JS, while Hardhat Library and Solidity were used for the backend with Node JS. Received positive feedback and successful implementation.

## SKILLS PROFILE

---

### Technical Skills:

- Proficient in JavaScript, TypeScript, React, Angular, Node.js, GraphQL, Tailwind, Bootstrap, HTML, and CSS for creating interactive and responsive web user interfaces.
- Experience in using RESTful APIs to connect and communicate between applications.
- In-depth knowledge of Node.js, Redux, and Axios in web development.
- Strong experience with Jest and other testing frameworks for unit testing.
- Expertise in Version Control using Git and GitHub for code management and collaboration.
- Utilized Jira software for Agile development methodologies.
- Excellent communication, planning, and time management skills.
- Familiarity with C and C++ Programming.
- Proficiency in Blockchain Development using Solidity, Hardhat, and Ether JS.
- Skilled in Web Animations using CSS, GSAP, and Framer for interactive user experiences.

## WORK EXPERIENCE

---

**EATHUB**

**FEB 2021 – CURRENT**

*Remote Startup*

*Front-End Engineer, Co-Founder*

### Key responsibilities:

- Led the frontend team and worked with React, Redux, JavaScript, HTML, and CSS.
- Created prototypes using Figma and ensured website bug-free using Jest.
- Managed development process with Agile Methodology in JIRA.
- Utilized GitHub for code version control and management.
- Designed and implemented key functionalities for products.

- Developed and maintained system operations and management workflows.
- Temporary backend server built with Node.js and Express.js.

**ATB Tech**

**APR 2022 – OCT 2022**

*Lagos*

*Frontend Developer (Intern)*

**Key responsibilities:**

- Designed, Wrote, modified frontend using **Angular, JavaScript, Typescript** along with the CSS library **Bootstrap**
- Used **GitHub** for management of code and version control
- Worked With **Node Js** to build and integrate features to a backend server.

---

**PROFESSIONAL MEMBERSHIP**

- National Association of Computing Students (NACOS),  
President, Caleb Chapter

**JUN 2023 - CURRENT**

---

**INTERESTS**

- Learning Webflow for the Animation Development.
- Building Automated Robots using Arduino C.
